

KEGG_2021_Human

Enriched terms

Natural killer cell mediated cytotoxicit...
 Antigen processing and presentation
 Regulation of actin cytoskeleton
 Leukocyte transendothelial migration
 Diabetic cardiomyopathy
 Shigellosis
 Yersinia infection
 Focal adhesion
 Parkinson disease
 Prion disease
 Oxidative phosphorylation
 Pathogenic Escherichia coli infection
 T cell receptor signaling pathway
 Thermogenesis
 Tight junction
 Bacterial invasion of epithelial cells
 Fc gamma R-mediated phagocytosis
 Non-alcoholic fatty liver disease
 Salmonella infection
 Graft-versus-host disease
